The Market Hub: OAuth flow and upload interface (Google Cloud project 818229650855)

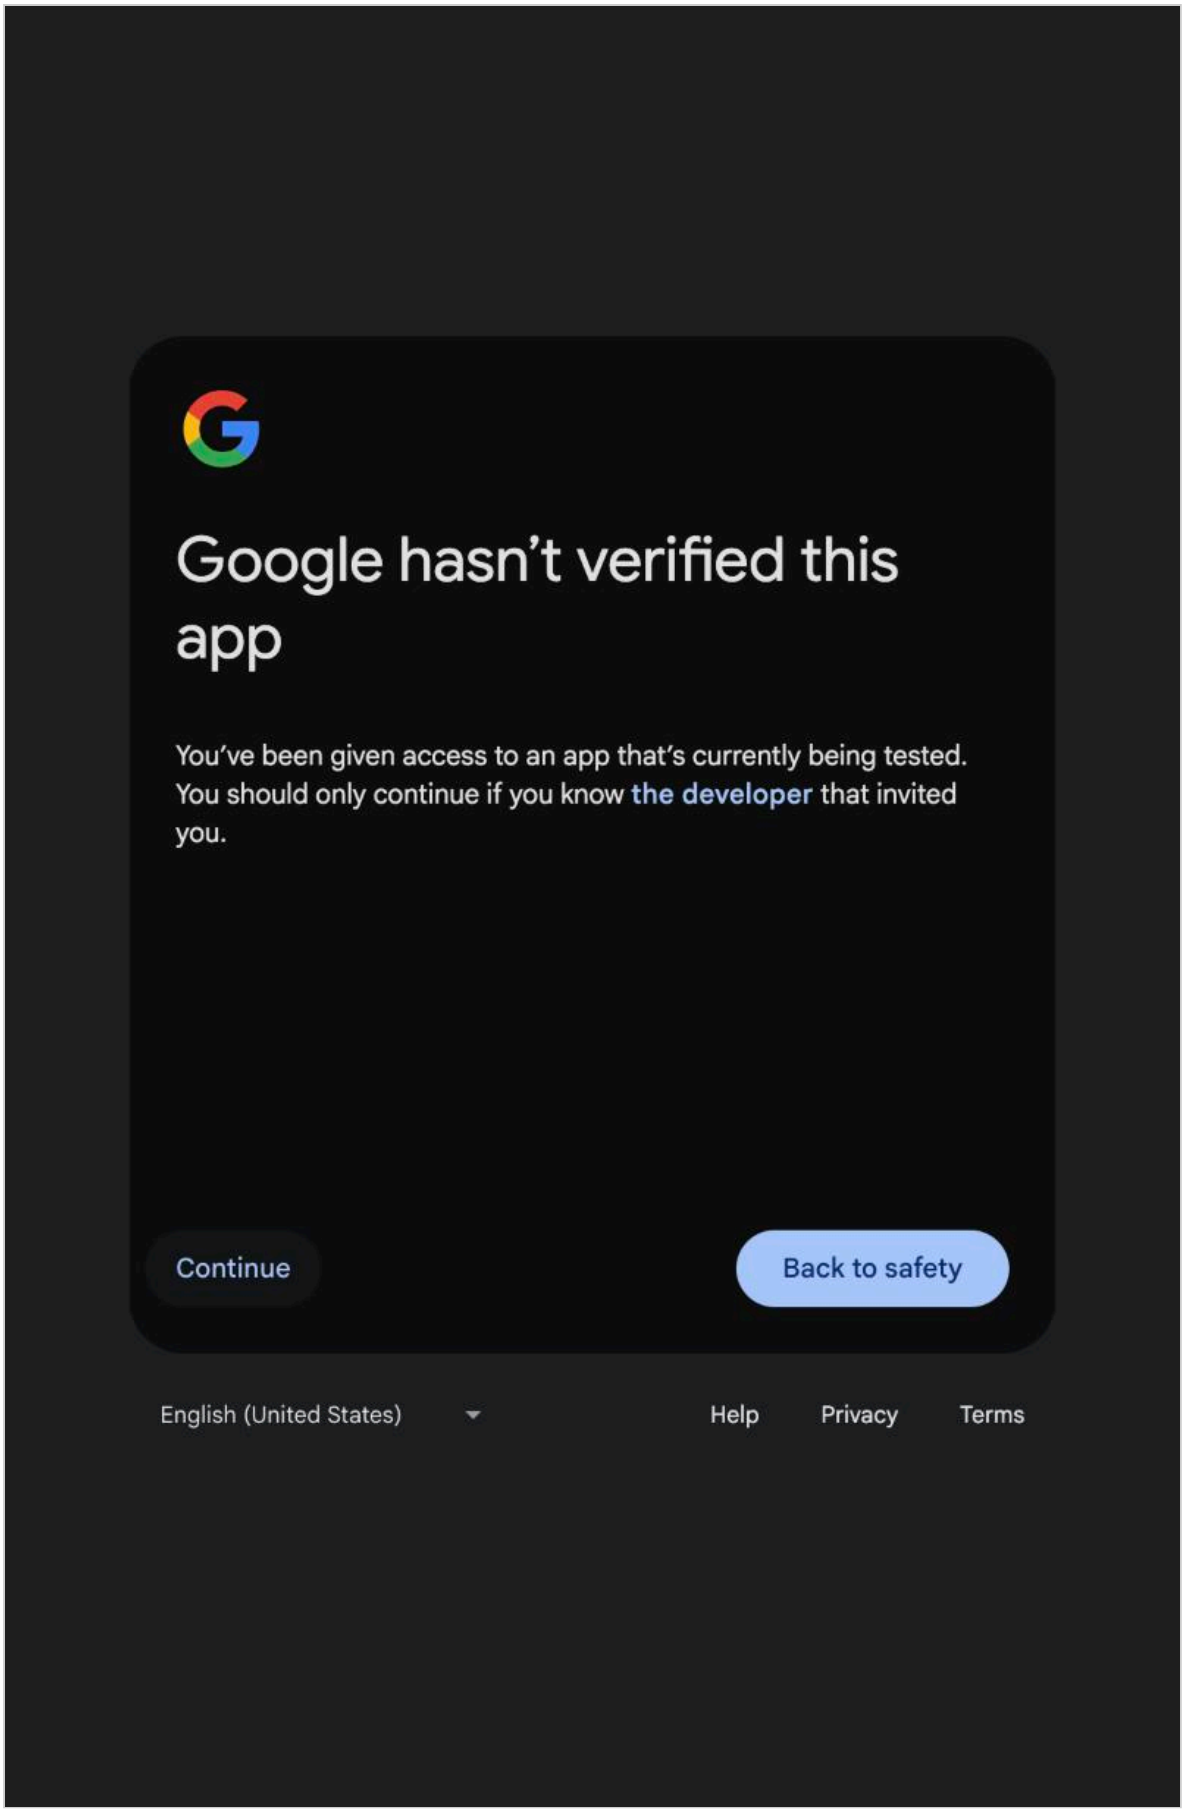

1. Consent screen: the app asks the channel account for access

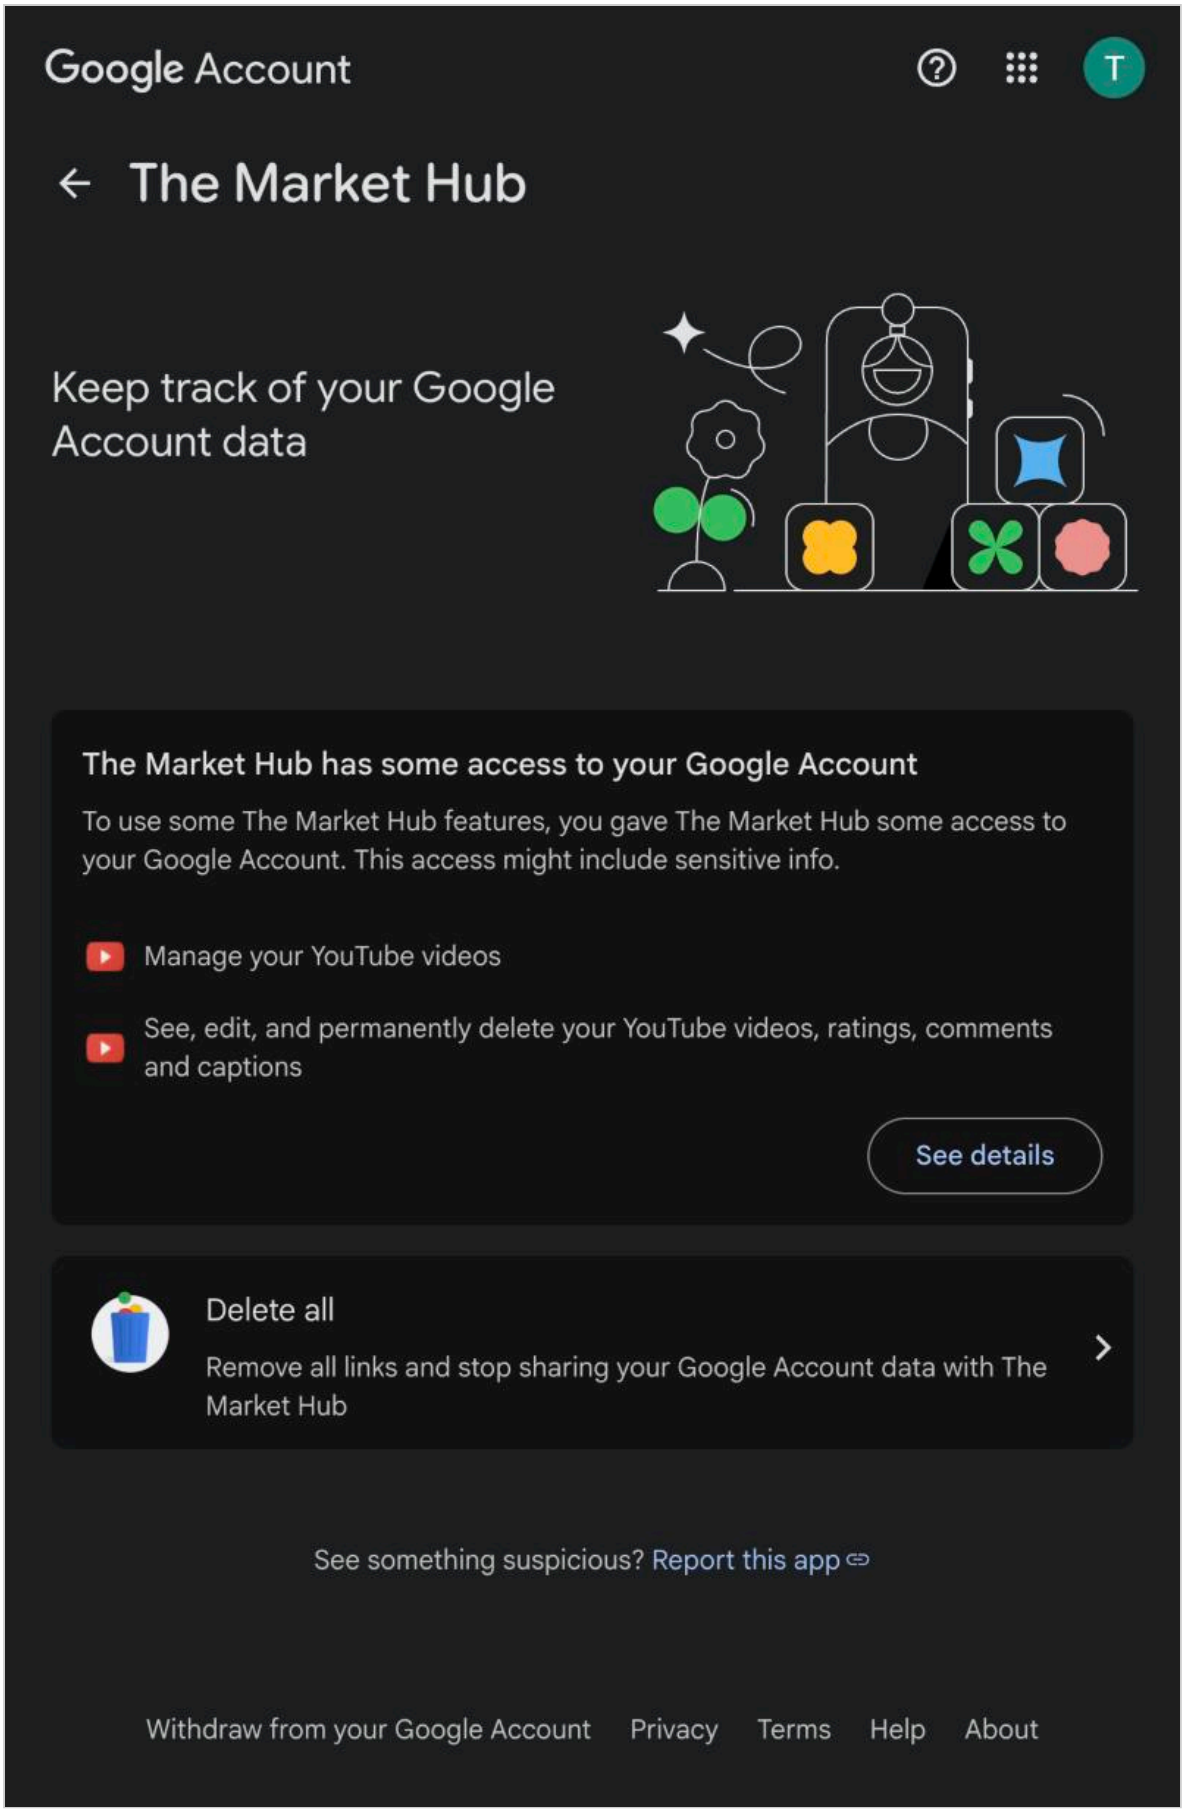

2. The scopes it asks for: upload and manage the channel's own videos, captions and playlists

3. The warning Google shows while the app is in testing

4. Revocation: the channel owner removes the access at myaccount.google.com ("Delete all")

5. Upload interface: the command-line tool uploads a test Short (private) and records it
